

## VERNET-LES-BAINS - INFORMATION IN ENGLISH

Vernet-les-Bains is a beautiful mountain village situated at an altitude of 650 metres (about 2,000 feet) in the *Pyrénées-Orientales* (eastern Pyrenees) of France. It is an ideal centre for visitors and holidaymakers.

The village enjoys a wonderful climate (with, on average, 300 days of sunshine each year) and is set in a sheltered valley in the foothills of the Canigou mountain - which rises to a height of 2,785 metres (over 9,000 feet).

Tranquil and restful, Vernet-les-Bains has long been known for its hot water springs. A health centre in the village is located above this source and is specially equipped for the treatment of respiratory and rheumatic conditions.

Here the natural environment is a treasured asset. Officially designated as a "Centre for green tourism", Vernet-les-Bains is also proud to be the first "Village-Arboretum" in France. Over 1,500 trees are located within the village, with some 200 species having been identified and listed.

Vernet-les-Bains is an excellent centre for walkers. There are many possibilities for good walks in the Canigou massif, and in the Cady valley, where the village is located.

There is also a geological museum with a fine collection of specimens, including some remarkable crystals and marine fossils.

And, within close reach of Vernet-les-Bains, there are many other fascinating attractions: Romanesque abbeys, picturesque villages and fortified towns, stunning limestone caverns, the famous "little yellow train", etc...
